Technical Specification of salt Testing Kits

1. The salt testing kit should be ready in use, liquid form. Each salt testing kit should have 20 ml testing solution or testing capacity of 75-100 samples. Supply should be in plastic screwed cap vial and able to dispense one drop at the time for use at community level. It can be stored at ambient temperature and relative humidity (20-90% ±10%) in any part of the country.
2. The kit should be able to differentiate:-
 - a. Salt with iodine
 - b. Salt with inadequate iodine in the range of 05 to less than 15 ppm.
 - c. Salt with adequate level of iodine 15 ppm and above.
3. The kits should be able to detect iodine levels in the salt from various sources and characteristics e.g. salts that are alkaline/acidic in nature and with varying sodium chloride content in the country.
4. The test kit should have been evaluated and validated by at least one International agencies like WHO, UNICEF, MI and /or National Level Laboratories such as National Institute of Nutrition, Hyderabad, National Centre for Disease Control, Delhi, All Indian Institute of Medical Science, New Delhi, All India Institute of Hygiene & Public Health, Kolkata, Central Food Technological Research Institute, Mysore, India Council of Medical Research & Council of Scientific and Industrial Research Laboratories. The validation should include tests for the quality packaging ready to use testing (drop by drop), stability at various places, shelf life under sealed condition as well as open condition as all these parameters are inter linked. The Testing laboratory should submit a detailed report about the test parameters including how they vary under different field conditions.
5. The offered Manufacturer/ Bidders should have manufacturing and marketing experience minimum of 2 years and should be supported by documentary evidence.
6. The shelf life of the Salt Testing Kit should be at least one year and when vial is opened it should not be less than 4-6 months.
7. Pack size: Each salt testing kit should be independently packed and not more than 10 kits in a bigger package, for the purpose of ease of transportation/ distribution.
8. Bidders are required to submit documentary proof in support of above quoted specifications and requirements along with their bids.
9. Bidders are also required to submit the three packets having then kits each of independent packing as per technical specification at S. No. 1 to 6 of salt testing kit as samples along with their bids.
