Office Order

Textile units under MSME Grant Scheme having own ETP and maintaining ZLD had earlier been directed to install PTZ Camera for monitoring the discharge of effluent by these industries. It was observed by the State Board that installation of only PTZ camera is insufficient to ensure discharge of effluents by the industries.

The matter has been reviewed at the State Board regarding the effective monitoring of the ZLD condition in the units falling under the MSME Grant Scheme and it has been decided that,

"In order to effectively monitor the ZLD condition in the units, all the units under MSME Grant Scheme having their own ETP and maintaining ZLD condition must install Flow Meter along with the PTZ Camera the ETP within three months, as the PTZ camera alone cannot ensure the ZLD condition and ensure its configuration with the State Board OCEMS Portal".

All Regional Officers must ensure compliance of the above directions.

This bears approval of competent authority.

Yours sincerely,
