No.F.12.(IEC-87)RSPCB/2894-2901

Date: 09/12/2023

## Order

The State Board has recently launched Environmental Audit Scheme (EAS) in the State to meet long standing need for improving level of regulatory compliances. Subsequently, Expression of Interest was invited for empanelment of auditors under the scheme by the State Board. Individuals/Institutions at Annexure 'A' are engaged as Environmental Auditors by the State Board to carry out environmental audits of the assigned industries:-

This engagement is strictly on temporary basis with the following terms and conditions:-

- i. This is a purely temporary engagement which does not guarantee for any employment in future in the State Board or any other government office.
- ii. Environment Auditors (EAs) empanelled by RSPCB would take up Environmental Audit under this scheme.
- iii. RSPCB will constitute the audit teams and assigns audits of concerned industries from time to time for taking up audit under this scheme.
- iv. Remuneration of Rs. 12,000/- per person day would be payable to EAs. No accommodation will be provided to the auditors, and they have to make their own arrangements during their period of audits. RSPCB would prescribe the duration and broad scope of work on case-to-case basis. However, duration of the environmental audit shall not exceed beyond five days.
- v. Reimbursement of the invoices after submission of final audit reports by the EAs to be done by concerning Group/Regional Office, as per prevailing delegation of power at the State Board.
- vi. Monitoring, sampling and analysis charges shall be paid extra as per rates approved by RSPCB to be carried out laboratory accredited by MoEF-CC/NABL or Laboratories approved by RSPCB for testing/monitoring.
- vii. The EA would be expected to submit the draft audit report to the concerning Group In-Charge(s) at RSPCB and concerning Regional Office for comments within 7 days of completing visit to the unit/site, who in turn shall offer specific comments for amendment in the report.
- viii. EAs would be expected to modify reports on the basis of these recorded comments.
- ix. If no comment is offered by the Group In-charge(s) or Regional Officer(RO) within 15 days of submission, the Audit Report shall be considered as final.
- x. Final Audit Report shall be forwarded to the concerned unit, GIC, RO for necessary action alongwith intimation to Project Cell at RSPCB, who shall initiate appropriate action under provisions of relevant acts/ rules.
- xi. The State Board reserves the right to delist defaulter EAs, in case:-
  - a. Any grievance/ complaint is received against environmental auditors by any industry and reported likewise upon verification.
  - b. Conflict of interest for any assigned industry.
  - c. Confidentiality of reports/ information is breached by an EA.
  - d. Any incident which proves intentional breach of Code of conduct by any EA.
  - e. Pending or contemplated police enquiry against an EA.

# Rajasthan State Pollution Control Board

Headquarter, 4, Institutional Area, Jhalana Doongri, Jaipur-302004

Phone : 0141- 2716804, 2716800 e-mail : [member-secretary@rpcb.nic.in](mailto:member-secretary@rpcb.nic.in)

Helpline No. : 0141-2716877

- xii. It shall be responsibility of the Team leader of an audit team to decide the dates of audit of the assigned audit, which shall be done in consultation with associated team members and inform to concerned industry well in advance for the audit dates.
- xiii. It shall be the responsibility of the Team leader of the audit team to take all relevant information related to the assigned industry from the concerning Group/ Regional Office, before carrying out the audit.
- xiv. EAs shall physically verify the audit/ contents of all annexures of the audit report meticulously and must highlight the ambiguities if found in physically verification specifically.

Teams shall carry out the Environmental Audits and reports shall cover following points mandatorily:-

1. Duration- Period of auditing.
2. Brief details of industry- including name, address, contact number, coordinates, date of commissioning, numbers of workers and shifts & timings, details of Director/Partner/ Proprietor/Incharge of environmental issues.
3. Raw material- Details of raw materials required to manufacture per Kg./Ton/KL of each product including details of regarding proof of procurement/invoices and stock available storage area.
4. Product details– Complete Details of Products/By-Products, Production per day, Consented Quantity, Batch Details, Number of batches per day, Duration of per batch, storage area.
5. Manufacturing Process– Step wise complete manufacturing process diagram including details of chemical reactions, mass balance with respect to raw material, water required, waste water generation, sludge/residue generation and final quantity of product formation.
6. Fresh Water Requirement– Sources of Water, Quantity of Water Consumed per day (Domestic/Industrial), allowed quantity as per CGWA, Storage facility available to store fresh water and metering arrangements on fresh water lines, water balance diagram.
7. Waste Water Generation– Details of waste water generating process, Quantity of waste water generation in terms of production capacity, type of waste water streams, Nature of effluent, Domestic sewage generation as per employees/workers engaged.
8. Waste Water Treatment– Details with capacity of waste water treatment facility(STP/ ETP etc.), Design of treatment facility(Secondary, Tertiary, ZLD), ZLD status(MEE/ ATFD), Adequacy of treatment facility as per quantity and nature of Effluent, Operational Status, Metering arrangements, Energy meter, SCADA, Logical Control (PCC), Chemical dosing, Quantity of chemical/media purchased and consumed, Effluent standards and comparison of analysis results (Minimum 2 Years - Periodically Board's reports).
9. Recycling of Treated Waste Water – Quantity of treated effluent being re-used in process along with details of process, use of treated effluent in process.

alongwith details of land area where treated effluent is being used, dual lines system, metering at recycling pipelines, storage facility for treated effluent, quality of recycled waste water, Bypass arrangements(if any), online pH meter/OCEMS or any other device installed at recycling arrangements for real time monitoring of effluent quality/ quantity.

10. Sludge Management – Nature of sludge generated from waste water treatment, dewatering facilities, sludge storage facilities, disposal of sludge(CTDF/co-processing/ Pre-processing/recycling etc.)
11. Hazardous Waste Management - Type, quantity, source & composition of hazardous waste, generation of different type of HW(Ton/year or KL/Year), material balance considering generation, processing and disposal, storage site, Manifest record, leachate generation and its treatment, best practices for disposal/co-processing of HW.
12. Air Emissions - Sources of air emissions, no. of flue gas stacks, stack height, fuel, fuel consumption, emission rate, probable pollutants, stack monitoring facilities as per Board's guidelines, air pollution control measures(APCM) installed with stack, adequacy of APCM, energy meter, use of prohibited fuel(if any), online surveillance, trends/comparison of monitoring results(last 2 years).
13. Ambient Air Quality – Ambient air quality within the unit's premises, AAQM stations if any, data trends of ambient air quality, impact of air emissions on ambient air quality, compliance of CAQM directions, NCAP progress and conclusion.
14. DG Sets - Capacity of DG sets, stack height, acoustic enclosure, monitoring facility, fuel and fuel consumption.
15. Rain Water Harvesting - Rain water harvesting structures and adequacy as per roof area.
16. OCEMS - Parameters, configuration status, methodology, data transmission, data availability on RSPCB/CPCB portals, calibration status, exceedences, data analysis and record keeping.
17. Plantation - Plantation area, % plantation, green belt development and adequacy of plantation (33%).
18. E-waste disposal - Status of e-waste generation, quantity and mode of disposal, records.
19. Accidents - Accidents in units and remedial measures taken.
20. Safety Measures & Workers Health - Housekeeping, Goggles, Gloves, Gumboot, Helmet, ear-plug, face masks, clothing, Periodical check-up of workers, handling of hazardous material, medical officer in units, emergency plan(onsite/offsite), disaster management/gas leakages and health records regarding adverse effect on worker's health.
21. Environmental Compensation- Amount levied, deposited and other compliances.
22. Documentation - EC, Consent to Establish, Consent to Operate, Authorizations under various rules etc.
23. Compliance Status of EC, CTE, CTO and Authorizations.
24. Energy Efficiency
25. Renewable Energy
26. Any Other Observation of the Audit Team.
