## Office Order

Subject: Directions to bring other waste within regulatory framework of Hazardous and Other Waste (Management and Tran boundary Movement) Rules, 2016.

The Rule 6 of the HOWM Rules, 2016 provides that every occupier of the facility who is engaged in handling, generation, collection, storage, packaging, transportation, use, treatment, processing, recycling, recovery, pre-processing, co-processing, utilization, offering for sale, transfer or disposal of the hazardous and other wastes shall be required to obtain an authorization from the State Pollution Control Board. It is observed that persons responsible for operating facilities engaged in handling of other wastes seldom apply for obtaining authorization under the Rules.

The Hon'ble NGT vide order dated 26/08/2019 has accepted following recommendations of the Monitoring Committee in the matter of Original Application Number 804/2017, Rajeev Narayan versus Union of India:-

*"Recommendation No. 1.2: Other waste is presently missing from all the regulatory actions, including inventory. It is necessary to bring such waste in regulatory domain, as envisaged in the rules."*

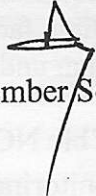

To bring other waste in the regulatory framework of the Hazardous and Other Waste (Management and Tranboundary Movement) Rules, 2016, industries engaged in generation and handling of other waste are directed to obtain authorization under the rules. Regional Officers are directed to identify industries which are engaged in handling of other waste (using as raw material or generating as waste). The Regional officers shall report these facts to this office and direct such industries to obtain authorization under HOWM Rule, 2016. The Group In Charges shall also examine inspection reports, critically identify industries which are engaged in handling of other waste and bring them in authorization mechanism.

This bears approval of the competent authority.
